

Psychology

Gain a thorough grounding in the scientific discipline of psychology.

Discover how psychological knowledge informs your faith—and how your faith informs your understanding of psychology. Apply your knowledge through research with professors and present your work at academic conferences. Participate in local internships to investigate possible careers. Psychology alumni attend nationally known graduate schools, and local employers recruit them. Graduates have received honors such as a clinical post-doctoral internship at Harvard Medical School and a Ford Foundation Pre-doctoral Minority Fellowship. In 2015, Best Psychology Degrees named our program one of the top 10 Up-and-Coming Undergraduate Psychology Programs in the West.

SELECTED COURSES

- Lifespan Development
- Clinical Neuropsychology
- Social Psychology
- Abnormal Psychology
- Fundamentals of Clinical and Counseling Psychology
- Behavioral Neuroscience

CAREER PATHS

Our graduates hold a wide variety of positions in areas of psychology and related fields. Many work in clinical or counseling, school, health, rehabilitation, and educational psychology. Some serve in industrial/organizational settings, marketing, and neuropsychology. Still others specialize in social, media, military, or forensic psychology. Our department works hard to ensure the success of our graduates.

FACULTY HIGHLIGHTS

ANDREA GURNEY,

ALUMNI

Anna VandeBunte '17 graduated with a B.A. in Psychology and then worked as the Psychology Laboratory Coordinator in the department for the following two years. She is currently in a clinical psychology doctoral program on the neuropsychology track at Palo Alto University in Palo Alto, California. Anna's research interests include utilizing exercise and diet interventions for those with memory concerns, the importance of vascular brain health, and the impact of mood disorders on aging.

Kaitlin Kinney '17 graduated from Westmont with a B.S. degree in Psychology on the behavioral neuroscience track. She earned a Master of Science degree from the University of Southern California in neuroimaging and informatics

and worked at the Semel Institute for Neuroscience at UCLA. She is currently completing the Neuroscience PhD program at Wake Forest University in North Carolina.

Valerie Swisher '22 graduated from Westmont with a B.S. in Psychology. She completed a year long Fulbright Fellowship in Hungary, where she conducted research on mental health literacy and help-seeking behavior among Hungarian primary care providers and patients. She also received a prestigious 5-year National Science Foundation Graduate Research Fellowship to support her in the Clinical Psychology PhD program at Penn State University.
